REO Asset Management NW: Your Complete REO Solution

REO Asset Management NW makes it easy for lenders to manage their real estate owned (REO) properties and get them back on the market priced to sell. We put our nearly 25 years of experience to work for you, with REO portfolio services that lead the industry in quality, reliability and value.

For information about our services, please click on the links below:

[Management Services](#) - We inspect, maintain, winterize and secure your REO portfolio, so when you're ready to sell, your properties will be too.

[Construction Services](#) - Whether you need to rehabilitate or finish a property, we have the experienced contractors to get the job done right, and oversee the construction process to completion.

[Valuation Services](#) - We appraise properties, estimate construction costs, and provide comprehensive market feasibility studies-exactly the information you need to complete your properties, price them correctly for the market, and get them sold.

[Receivership Services](#) - Your pre-foreclosure properties need maintenance, but doing that work yourself means becoming a "mortgagee in possession," making your bank vulnerable to legal action by the debtor. With REO's receivership services, we maintain your properties so you can focus on completing the foreclosure process and putting your properties on the market.

[Contact us](#) today and we'll tell you more about what REO Asset Management can do for you.
